Why is First Year engineering at VIT so dynamic?

The pages of this Coffee Table Book capture the dynamic life of First Year Engineering students who stepped into the wonderful world of Vidyalandkar Institute of Technology in the Academic Year 2019-20.

Every page features the thrilling journey and cherished memories that encapsulate the encouraging academic environment at VIT, the plethora of co-curricular and extra-curricular activities that the First Year students participated in, the multi-faceted achievements of students, and the strong support system provided by the First Year faculty in the Academic Year 2019-20.

With the theme of “Roots to Wings”, the Coffee Table Book showcases how the First Year Department is nurturing the roots and strengthening the wings to enable students to reach their true potential.

Say Cheese!

When exactly after a decade, I was once again entrusted with the responsibility of leading the First Year Engineering Team, I was experiencing a mixed bag of emotions. While I was feeling honoured for being considered for this post for a second stint, it was also a great bonding exercise to bring together the faculty of a bouquet of varied subjects, all of us connected by a strong wish to offer the best possible learning experiences to the First Year student community. What excited me the most was the unique opportunity to better understand the specific requirements of the millennial generation of youngsters, not only as an educator and mentor, but also as an administrator and change agent.

As the roller coaster ride of the Academic Year 2019-20 comes to an end, it is time to take a walk down memory lane and celebrate our small victories, pat ourselves on the back for tiding over some really challenging and unprecedented times, and cherish our amazing bonding with the students. It was with great hope that we warmly welcomed our new batch of First Year students with the Orientation and Induction Programs. Together we spent a great year, marked by learning and assignments, tests and exams, academic success, fresher's eve, sports, an educational tour, short seminars by experts from various domains, a scintillating guest talk by an alumnus, class photographs and many more lovely memories. Then out of the blue, the pandemic struck before the semester could be over. Even amidst lockdown we stayed connected with our students through online sessions, webinars, creative and fun competitions, internships and completed an array of online courses and training programs and equipped ourselves with some great tips on conducting effective online sessions. Collectively we proved that “learning never stops!” This Coffee Table Book aims to capture the essence of our beautiful moments together.

The seeds of releasing a Department Coffee Table Book were sown and nurtured by me and Meenakshi to capture the beautiful memories of the First Year Engineering journey of the 2019-20 batch. Guided by us, the team worked on the structure and the content and displayed incredible creativity in giving shape to the ideas. As the Department is all set to welcome a new set of students, we are excited with the opportunity of offering blended learning experiences. On a concluding note, I would like to remind our readers that “Life is like a camera. Just focus on what's important and capture the good times. Develop from the negatives, and if things don't work out, just take another shot.” Say cheese and keep smiling!

Sonaali Borkar

In-charge, First Year Engineering
Vidyalankar Institute of Technology

An Ode to the First Year students of 2019-2020

The entertaining bus journey and the edu-tour
The guest seminars had some inspiring fundas for sure
Mondays were serious business with the corporate look
The creative teamwork on the board activity taught
more than a book

A warm welcome at the “Orientation”
Your seniors made you aware at the “Induction”
A glimpse into the campus facilities
And the plethora of fun activities

The scramble for capturing the last bench
The shared dabbas, the delicious group lunch
The chit-chat and the precious short break
During long lectures, the challenge to keep awake!

Letting your hair down at the Fresher’s Party
It was fun to participate in Mr. and Ms. VIT
Then came along your very first annual fest
Chilling with friends felt the very best

Aah, how can you forget your first semester exam?
Trying to recollect all that you had to cram
The wonderful results that made your family prouder
Uh oh...a KT! Never mind; a little jolt to study harder

Then came the sudden lockdown out of the blue
About your regular routine, there was no clue
Yet, on your priorities, you started focusing
Online knowledge you started pursuing

Virtually you kept alive your friendship
You attended Webinars, pursued internship
You participated in quizzes and competitions
You strived to develop positive situations

As you move ahead to the Second Year of Engineering
Do remember your first memories of college days
amazing

Good luck, study well, be healthy, make a mark anew
Be assured that the First Year Team is always there for
you!!

Meenakshi Nandula
Department Academic Officer
First Year Engineering
Vidyalankar Institute of Technology

The promise of new beginnings
The fear of new surroundings
New friendships to strike
Amidst dazed expressions alike
Thus began your student life at college
An unending quest for knowledge
The assurances of your teachers
The help extended by your seniors

NURTURING ROOTS

“You have to grow from the inside out...There is no other teacher but your own soul.” — Swami Vivekananda

First Year Orientation Programme

“Give the ones you love wings to fly, roots to come back and reasons to stay.”
—Dalai Lama

Illuminating the commencement of the New Academic Year, the minds of our appetent entrants were kindled by stating the importance of First Year in the Engineering tenure and also by emphasizing the importance of habitual studies and sincere attendance.

First Year Induction Programme

"The mind is everything. What you think you become." — Buddha

To brief the students about the planning of the upcoming semester, an Induction program was conducted by the FE Department. It was aimed to make them aware of all the subjects in Semester II and their real life application and also to give an overview of V-Provisions available in the institute. The importance and scope of aspects of the subjects in the semester was elucidated comprehensively by propelling the students to develop research and analytical skills.

First Year Induction Programme

"Winners don't do different things. They do things differently." — Shiv Khera

A series of enthralling sessions piloted by the energetic faculty of the First Year Department boosted the newly admitted students unclogging their interrogative minds about the new academic environment by means of various activities like Mentoring, Workshop on Human Values, Creative & Literary activities, Diagnostic tests, etc.

Mission 100!

“A small body of determined spirits fired by an unquenchable faith in their mission can alter the course of history.” — Mahatma Gandhi

Going an extra mile was a key strategy of the First Year Department in order to attain dynamic results and exceed expectations, fulfilling the aim of 100% results which was executed through different activities that included meticulous problem solving, conduction of POP QUIZ, NPTEL lectures, POSTER PRESENTATIONS etc. making the sessions interactive and build stronger concepts with respect to the FE syllabus.

Extra Lectures for Students Admitted Late

“Meeting the deadlines is not good enough, beating the deadlines is my expectation.”

Benefitting students who joined the Institute late on account of later rounds of admission, the faculty put their best foot forward with all the endeavour to conduct extra lectures along with library sessions for the students who joined late, which helped them get grip of the ongoing syllabus in the regular lectures.

Study Circle

“Walk on with hope in your heart, and you'll never walk alone.” — Shah Rukh Khan

Elevating the sense of synergism and creating an environment of collaboration to benefit the students for the examination preparation, an activity called “Study Circle” was formed which led to group study and personal interaction with the subject teachers thus enabling students sharpen their concepts and prepare effectively for the upcoming examinations.

Last Minute Revision (LMR)

“Excellence is a continuous process and not an accident.” — Dr. A.P.J. Abdul Kalam

Accelerating the performance and strengthening the concepts of the students facing University Exams for the first time, a Last Minute Revision Session was conducted by the Department on student demand that included discussions on paper pattern, question banks, strategic tips etc. which proved to be quite constructive for all students.

YouTube Live Doubt Clearing Sessions

"Technology is just a tool. In terms of getting the kids working together and motivating them, the teacher is the most important." — Bill Gates

How to Prepare for Engineering Mathematics-I Dec. 2019 Exams?

Matrices

- Rank of a Matrix using Normal or PAQ Normal form 6 M
- system of Homogeneous & Non Homogeneous Equations 8 M
- Problem based on basic properties

Engineering Mathematics-I Doubt solving session 1 DEC. 2019

Organized for the first time using advanced technology, the Department of Mathematics & Statistics conducted a special activity named the YouTube Live Doubt Clearing Sessions just a few days before the examination with a perception of the accessibility of each student that facilitated to clarify students queries and last minute doubts in Mathematics.

IEDP Counselling Session

"If I, being a mother, can win a medal, so can you all. Take me as an example and don't give up." — Mary Kom.

IEDP Cell is intended to work for students having subject failures. Counselling program is arranged for parents and students having KT in FE subjects. Students are motivated to study hard and clear subjects in upcoming semester exam. Remedial sessions are arranged in weekdays and weekends as per the requirements of students. Students are provided with handwritten notes prepared by individual faculty along with crash courses arranged by expert faculty. Students and parents are kept in touch with department through WhatsApp group, text messages, frequent calls and emails.

Monday Formals

"The first thing others see is YOU—not your resume, background, or credentials. A picture is truly worth a thousand words and how you dress is the "picture" you provide for all the world to see." — Susan C. Young

The Department of First Year Engineering has initiated "Monday Formals" – a special weekly dress code for First Year students as a result of which, every Monday, students used to come to college in formal attire. The intended objective was to get them accustomed to formal attire as eventually they would be a part of the corporate world. This activity served to foster a feeling of professionalism and a sense of unity among students.

Fresher's Eve

"Always think outside the box and embrace opportunities that appear, wherever they might be." — Lakshmi Mittal

Putting up a plethora of various entertaining performances by the VIT Student Council, the students of First Year added to the spark and had a ball throughout the musical performance by APACHES, dance performance by SHOW STEALERS & BEAT BREAKERS and finally the MR. and MS. FRESHER CONTEST .

Class Photographs

"Being perfectly well-dressed gives one a tranquillity that no religion can bestow." —Ralph Waldo Emerson

INFTA

INFTB

Dressing up in formal attire, the entire faculty and students of the First Year Department geared themselves to be clicked under one frame which would be remembered as -The FE Batch of 2019-2020.

Stimulating Fertilizers

“Positivity is like the fertilizer that will help the seed to grow.”

Guest Lecture

“Have the courage to follow your heart and intuition. They somehow know what you truly want to become.”—Bill Gates

National Award Winning Founder of Alter Ego Learning and alumnus of VIT, Mr. Abhay Valsangar facilitated a robust start to the engineering career of students, aligning them to achieve smart goals through his striking and stimulating lecture on “Power of Beginnings” developing the right approach towards one’s future and also motivating their self-confidence.

Short Seminar Series

“Learning never exhausts the mind.”— Leonardo da Vinci

A short Seminar Series was conducted for students to apprise all about some very important aspects of professional and civil life. Sessions on road safety, UPSC and MPSC, Professional Attire and Grooming, Table Etiquettes were some of the areas which helped to enlighten the minds of students.

Short Seminar Series on Road Safety

"For safety is not a gadget but a state of mind."— Eleanor Everet

International Bike Racer Mr. Badal Doshi was invited to create awareness of road safety and inculcate healthy riding habits in our students. The seminar highlighted the significance of road safety, traffic rules and regulations, common mistakes drivers make while riding a vehicle, understanding of how to handle a bike, and understanding of automobile technical terms like optimum speed, tyre pressure, free pedal length etc. The seminar left a good impact on students and their mindset.

Short Seminar Series on UPSC/MPSC

"It always seems impossible until it's done." — Nelson Mandela

Dy. RTO, and Jt. Secretary of RTO Association of Maharashtra, Mr. Bharat Raut shared his knowledge and experience on UPSC/MPSC examinations. Being a publisher of four books on MPSC, he intended to create awareness about competitive MPSC-UPSC examinations, the seminar highlighted the importance of competitive exams in today's world, its rules and regulations and understanding of social responsibilities being a Government officer. To add to these, he also shared with students his mantra for success in competitive exams.

Short Seminar Series on Professional Attire, Grooming and Table Etiquette

"Be sincere, Be brief, Be seated."— Franklin Delano Roosevelt

To bridge the gap between professional and corporate etiquettes, Ms Jaishri Kimmatkar, Director, Chief Image Consultant and soft skills trainer at Image Personified, conducted a session to create awareness of professional etiquettes in our First Year students and helped them to understand the various levels of formal attire and personal grooming required in the professional world. Another seminar was conducted on "Basic Table Etiquette", especially with regard to professional dining mannerisms.

Create an Impactful Online Persona through Digital Profiling

"The internet is becoming the town square for the global village of tomorrow."

Keeping in view the significance of building a strong and impactful digital profile in today's world, the Webinar on "Create an Impactful Online Persona through Digital Profiling" infilled the students with the lesson that designing of the persona is imperative by targeting the right avenues, contributing content digitally, following experts, writing articles and publishing projects. The speakers were Mr. Nilesh Mahajan, Vice President, Reliance Jio; Mr. Prasad Tokekar, Sr. Vice President – Employee Relations and Compliance, Reliance Jio and Reliance Retail and Miss Tejaswini Gupta, Risk consultant with Flexi loans.

Webinar for Parents and Students

“Just don’t give up trying to do what you really want to do. Where there is love and inspiration, I don’t think you can go wrong.”

A Webinar on Positive Outlook towards Transforming Current Challenges into Opportunities where the speakers were Mr. Mahesh Kshirsagar, Chief Technology Officer, Analytics & Insights Unit, and Mr. Rajiv Noronha, Head HR, Analytics & Insights Unit who highlighted the attributes for employability like having positive mindset, application of knowledge, team-building, peer learning, ability to question, holistic thinking. The key point of their message was a new acronym for COVID-19 as ‘Comprehending Opportunities Via Informed Discovery @’19 for the FE students.

A close-up photograph of a hand watering a small green seedling in a glass container. The hand is positioned on the right, pouring water from a glass bottle into the container. The seedling is on the left, with two small leaves. The background is a soft, out-of-focus green. The text "Skilled Gardeners" is overlaid in a large, bold, red, italicized font across the middle of the image.

Skilled Gardeners

“It is the supreme art of the teacher to awaken joy in creative expression and knowledge.” — Albert Einstein

First Parent-Teacher Meeting

"Once we decide we have to do something, we can go miles ahead." — Narendra Modi

An opportunity provided to the Parents of the First Year Students in The Parents-Teacher's Meet which exemplified the various practices of VIT like Mission 100, Certification Courses, Extra Lectures, Subject Induction, Placement activities, etc. assuring the parents their merited selection of the Institute.

Faculty Development Programme by VIT & TCS

“For the things we have to learn before we can do them, we learn by doing them.” — Aristotle

Facilitating a jumpstart to the first semester start, Mr. Shreekant Shiralkar and Mr. Gaurav Ghelani from TCS highlighted attributes required for ‘Problem Based Learning’ among students which led to active involvement by the faculties and also focussed on the impeccable learning and development of students through SWOT Analysis.

Faculty Development Program on Modern Educational Tools and Pedagogical Practices for Online Teaching

“eLearning doesn’t just “happen”! It requires careful planning and implementation.”

Vidyalankar Institute of Technology’s First Year Engineering Department organized a One Week Faculty Development Program from 21 – 25 June 2020. Experts in academia and ICT from prestigious institutes such as IITB, IIDE, University of Mumbai (IDOL), Mathworks delivered hands-on sessions. The FDP saw active participation of around 700 faculty from across India. The program aimed to strengthen the online teaching learning process for faculty and provide them with modern tools and gadgets to be used effectively which will ultimately help in engaging new learners.

Eminent Speakers of the FDP

“Digital Citizenship is character education.”

The FDP was enlightened by speakers from diverse fields like Dr. Sameer Sahasrabudhe, Director, Educational Multimedia Research Centre, Pune; Mr. Mandar Bhanushe - Assistant Director, Institute of Distance and Open Learning; Sumit Tyagi, AICTE FDP programs Subject Expert; Anurag Mishra, Co-founder, CipherSchools; Dr. Saurabh Mehta, Chief Academic Officer, VIT; Saikiran Dudyala, National Operations Manager of Career Labs, Senior Manager, BJYU's Think and Learn Pvt. Ltd.; Dr. Anita Diwakar, Educational Technology Expert, IIT Bombay; Mr. Praful Pai, Mathworks; Mr. Anuraag Deep, Ph.D. Scholar in Inter Disciplinary Program in Education from IIT, Bombay; Mr. Karan Shah, CEO and founder, IIDE; Ms. Ajita Deshmukh, Assistant Professor at ICT with the School of Education and Research, MIT-ADT University, Pune, India

Counselling Session

"A person who never made mistakes, never tried anything new." — Albert Einstein

First Year Engineering's IEDP Committee organized a vitalizing address by the Vidyalkar Counsellor Ms. Archana Samarth to impart a sense of positivity to help students develop methods and strategies to clear their examination backlog successfully.

Cluster & Subject Workshop

"Coming together is a beginning. Keeping together is progress. Working together is success."— Henry Ford

A meticulous planning for the upcoming Even Semester in the Cluster Subject Workshop gave an opportunity to the members of the Department of First Year materialize together as a team to discuss, demonstrate and ponder about the preparations and rendition of the syllabus for the new semester which was facilitated by Prof. Sonaali Borkar, the Department Academic Officer Prof. Meenakshi Nandula and the cluster heads of the all subjects.

Far-reaching Wings

“Look at the sky. We are not alone. The whole universe is friendly to us and conspires only to those who dream and work.” — Dr. A.P.J. Abdul Kalam

Edu Tour

“Educational tour is considered as one of the tactical methods of teaching. It gives exposure from academic point of view.”

The visit to Vigyan Ashram, the center of Indian Institute of Education (IIE) Pune is yet another event to cherish today. The Edu Tour provided a good opportunity to gain full awareness of different technological projects such as Composter, Dome dryer, Rainwater harvesting and many more. The most enthralling part was that all projects were developed by their students for various real life applications.

Takeaways from activity/event GARBA NIGHT Date: 7-10-2019

We always do need a break after an exhausted day and garb night was the perfect one. After 4:45, we all dressed up. The student council did their best to release our stress and exhaustion and I danced to my heart's exhaust-contest on famous garba songs. It was a wonderful experience.

Paste Photographs here

Takeaways from activity/event Date: 7, Aug '19

← ORIENTATION PROGRAMME
AND COLLEGE TOUR →

The day when we actually saw where all we going to lead the next 4 most memorable & competitive years of the life.

"Provoked by Intellect. Propelled by Values" said our Principal sir, motivating us to embark our journey. Our HOD, Sonali B. Mam also warmly welcomed us!

Touring the college, seeing huge laboratories surrounded us and gave us a vision to go ahead and achieve the highs!

Paste Photographs here

"The present changes the past. Looking back you do not find what you left behind." — Kiran Desai

Achievers – Somita Chaudhari

“After all, we make ourselves according to the ideas we have of our possibilities.” — V.S. Naipaul

Ms. Somita Chaudhari presented an E-Lighting Poster on “Implementing Sustainable Development” and “Empowering Students and Academic Communities for Coastal Cleaning and Beach Sweeping programs along Arabian Sea using Information and Communication Technologies” along with chairing two sessions at Ocean Science Meeting 2020 at San Diego, USA from 16-21 February 2020

Achievers – MUN

“Model UN trains today’s students to tomorrow’s leaders. Students who do model UN would one day change the world.”

A Delegation of VIT students participated and won accolades in Rotaract Club of Jai Hind Model United Nations 2019 and in SIES GST Model United Nations 2020. Priyanka Kulkarni received a Higher Commendation in the Committee Lok Sabha. Srishti Sharma received a Special Mention in the Committee Lok Sabha; Deepankar Bhade and Chinmay Ranade won Special Mention in UNHRC; Ashish Kumar received a Higher Commendation in the Committee UNHRC; Karzan Kumana, Sonali Bedade, Ashish Kumar, Rugved Kharbade and Harsh Khedwal participated in Lok Sabha

World Water Day Poster Making

"Water is the driving force of all nature"— Leonardo da Vinci.

It is rightly said, "No Water. No Life. No Blue. No Green!" With an objective of sensitizing students and to spread awareness on the significance of water conservation, Poster Making Activity was organized on the eve of World Water Day observed annually on 22 March. *Kaveya Sivaprakasam* was adjudged as the winner in the handmade poster category and *Mihir Madkaikar* was adjudged as the winner in the digital poster category. The winners and participants were awarded certificates.

Internships

“The only way to do great work is to love what you do. If you haven’t found it yet, keep looking. Don’t settle. As with all matters of the heart, you’ll know when you find it.” — Steve Jobs

Under internship cell, special drive was initiated by Department of First Year engineering to provide e-Internships during Covid-19 lockdown. Out of 124 interested students, 87 internships are provided to 54 students during March 2020 to July 2020 (lockdown period) of academic year 2019-20. Top Companies like Gaming monk, Cloud Counselage and Brand Factory offered scholarship with adequate compensation. It was a new learning experience and a fruitful utilisation of lockdown period.

[Menu +](#)

"If you want to be a writer, you must do two things above all: Read a lot and write a lot." — Stephen King

It is a welcome drive for the students to have the first ever "First Impressions" - the official blog of Vidyalankar Institute of Technology's First Year Engineering Department. This blog features posts on a diverse platter of topics ranging from technology, travel, hobbies, health, lifestyle, career, and festivals. Let's stay connected with this new beginning, and let us unlock endless possibilities.... may this journey inspire others to share their amazing stories!

Women's Day

"Behind every successful women is a tribe of other successful women, who have her back."

On the occasion of International Women's Day, women students and women faculty of First Year Engineering displayed the spirit of solidarity and support with a WE formation.

Fun Quiz Competition

“Life is an exam where the syllabus is unknown and question papers are not set. Nor are there model answer papers.” — Sudha Murthy

To expand one's knowledge of things and enable students to think out of the box, a Fun Quiz Competition was organized by the First Year Department. It aimed to encourage students to look beyond their textual knowledge and establish a connect between theory and application of the learnt concepts on GK, logical reasoning and fun facts on Physics, Mathematics, Chemistry, Mechanics, Communication Skills, GK, reasoning backgrounds which will encourage students to use their knowledge and think creatively.

Which of the following was the capital of India 4 points for one day? *
