A fashion show is an event put on by a fashion designer to showcase their upcoming line of clothing during Fashion Week. In a typical fashion show, models walk the catwalk dressed in the clothing created by the designer. The clothing is illuminated on the runway by the lighting. The order in which each model walks out wearing a specific outfit is usually planned in accordance to the statement that the designer wants to make about their collection. It is then up to the audience to not only try to understand what the designer is trying to say by the way the collection is being presented, but to also visually deconstruct each outfit and try to appreciate the detail and craftsmanship of every single piece.

Like every year so this year too VERVE'17 could enjoy the showers of fashion show performances by various colleges around the city. Our own college team performed on the main stage and VIT was among one of the winners in our college.

Occasionally, fashion shows take the form of installations, where the models are static, standing or sitting in a constructed environment. A wide range of contemporary designers tend to produce their shows as theatrical productions with elaborate sets and added elements such as live music or a variety of technological components like holograms, for example. Later all the secretaries and the heads of student council 2016-17 stood in front of the stage headed by the

With a change in plan, Mr. Anuj came up with a beautiful rendition of 'Tu Dhoop hai' song and Mr. Akshat Jain with 'Mayeri' , which brought the students on their feet. The cultural convener Professor Rugved Deolekar took control of the stage and he along with members of the student council rendered the ever inspiring song 'Hum honge Kaamyaab' and 'Saarejahaan se acha'.

Even this time the dance team didn't lack behind to make the audience dance to their steps on songs like 'Chaiyya Chaiyya', 'Baware' and 'Hawan Kareng'. The dancers were Apurva Kokate, Shraddha Gupta, Nikhil Gaikwad, Rohit Agarwal, Tejomayi, Chaitali Acharya, Pranali Kalkar.

Having corrected the technical glitch it was time for the much awaited performance of the drama team of VIT, 'V-Rang', who came up with two back to back energetic performances. Already having caught the hearts of many people during "Jallos" they made sure that they lived up to their reputation and raised the bar for their upcoming performances.

Lastly, as an accolade to the Bollywood cinemas of India and their evergreen songs the music team performed songs like 'Duniya main logon ko', 'Chala jata hu', 'Gulabhi ankhen', 'Pyaar deewana hota hai', etc.

Thus, VIT dedicated a day to the language that is spoken by 41% of Indian people, which is spoken in 21 different countries and ranked 5th in the world, our national language –“Hindi”!

<b>Brief Description of the Event</b>	<p>On Friday, October 12th 2012 the freshman students of VIT were finally given their long overdue welcome party to the world of VIT. This party had many firsts to its credit-</p> <ol style="list-style-type: none"> <li>1. First ever Freshers' Party in VIT by the Student Council (Instead of just the Cultural Council)</li> <li>2. LIVE Streaming of the entire event for the first time in ANY college in Mumbai University</li> <li>3. For the first time, we took the enormously risky decision of not keeping food for the freshers.</li> <li>4. We introduced the concept of Cloakrooms for the first time and we are sure the students can appreciate this small step that went a long way to help them. Keeping bags on the football field is simply not feasible.</li> </ol> <p>All this and many small details made the party possible. The live streaming experiment: After transmitting for about an hour, the capacity of the streaming service was overwhelmed and the service crashed! <i>We simply did not anticipate the website to have so many hits in so less time!</i></p>		
<b>The Road Ahead</b>	The student council has learned many new things with this first event done on a grand scale. All the future events will be planned keeping in mind the limitations and shortcomings of this event. This event will also act as a minimum benchmark for all the student council events
