

E-CELL

Vidyalankar Institute of Technology

Ideas → Action → Impact

About E-Cell

The **Entrepreneurship Cell (E-Cell)** at Vidyalankar Institute of Technology (VIT) is a student-run organisation dedicated to nurturing a culture of entrepreneurship, innovation, and problem-solving on campus. Launched on 30 April 2026, E-Cell serves as the institute's dedicated launchpad for aspiring student founders — bridging the gap between a raw idea and a functioning startup.

E-Cell provides students with access to mentorship from industry leaders, funding guidance, workshops, pitch competitions, and hands-on exposure to the startup ecosystem. Whether you are exploring your first business idea or actively building a venture, E-Cell equips you with the tools, community, and confidence to take the next step.

Operating under the tagline "*Ideas → Action → Impact*", E-Cell believes that every student has the potential to create meaningful change — and it exists to make that journey a reality.

Objectives

- Foster an entrepreneurial mindset among students.
- Support end-to-end idea-to-startup development.
- Connect students with mentors, founders, and investors.
- Promote innovation, collaboration, and problem-solving.
- Create a sustainable startup ecosystem within the institute.
- Encourage execution, accountability, and smart risk-taking.

Activities & Events

Event	Date	Details
Launch of E-Cell	30 Apr 2026	Official launch with Startup Awareness session
Innovation Pitch	30 Apr 2026	150+ students, 25+ faculty members, all engineering departments

Leadership & Team

Faculty Leadership

Role	Name
Faculty Advisor	Dr. Sushopti Gawade
Convener	Prof. Geetha Narayanan
Member	Prof. Dhanashree Tamhane

Executive Core Team

Position	Name
Chief Executive Officer (CEO)	Tejas Pawar
CTO – Technical Research	Kedar Sawant
CTO – Documentation	Ved Songire
Networking Head	Soham Dugade
CFO & Marketing Head	Arnav Tripathi
CFO – Co-Head	Pakhi Katre

Student Startup Portfolio

#	Branch	Entrepreneur	Company / Startup	Year
1	CMPN	Aryan Nate	Autonova AI	BE-2026
2	BIOM	Tanmaya Khorgade	Pace Rover Medical Systems	2012
